

WEEK-3-PROGRAMMING PARADIGM LABORATORY (CEF2111)

STUDENTS NEED TO SUBMIT THE FOLLOWING PROGRAMS

Submission Format – Mandatory

For **every program**, use the following order:

AIM → PROGRAM → OBTAINED OUTPUT

Important: Every program must display the **Student Name and Roll Number** in the output.

0.3.1 Passing and Returning Various Data Types Using Functions

0.3.1.1 Passing and Returning **Integer** Using Function

0.3.1.2 Passing and Returning **Character** Using Function

0.3.1.3 Passing and Returning **String** Using Function

0.3.1.4 Passing and Returning **Array** Using Function

0.3.1.5. Passing and Returning **sentence** Using Function

0.3.2 Passing and Returning Structures Using Functions

0.3.2.1 Passing **Structure to Function** and returning **Structure** from Function

0.3.2.2 Passing array of **Structures to Function** and returning **Structure** from Function

0.3.2.3 Passing **Structure Using Pointer** and Returning

0.3.2.4 Passing Array of **Structures Using Pointer** and Returning

Observation experiments 3.1.1 to 3.1.4

Observation experiments 3.2.1 to 3.2.4

3.3 Interpolation Search

Implement **Interpolation Search** using all four categories of functions:

1. No Arguments – No Return Value
2. Arguments – No Return Value
3. No Arguments – Return Value
4. Arguments – Return Value

3.4 Additional Exercise

Student Management System Using Structures and Function Categories
